tion of greater responsibilities both financial and executive with regard to education to local bodies, the medium of instruction, the remodelling of women's education, the revision of the entire scheme of industrial education, the provision of an adequate number of training schools, the extension of the principle of free education, etc., are of outstanding importance and as they vitally affect the interests of the people of the State, Government do not propose to commit themselves to any changes in methods or policy without giving the fullest opportunity to all bodies and persons interested in the adoption of a sound educational policy for the future to examine the proposals and offer their criticisms and opinions.

4. The proposals embodied in the accompanying memorandum should be treated as being of a tentative character. A period of three months will be allowed for submission to Government of criticisms and opinions thereon from the date of publication of this memorandum. Educational Associations, Aided Agencies, Non-official Representatives of the Legislative Council, Members of the Representative Assembly and other leaders of the public interested in education are accordingly invited to study the questions discussed therein and favour Government with definite suggestions thereon within the time prescribed to enable Government to pass orders regarding the several outstanding problems relating to the educational progress in Mysore and consolidation of past work, and lay down a policy for future expansion.

5. The accompanying Memorandum will be published in the Official Gazette for general information.

6. A copy will be forwarded to all Heads of Departments, the Registrar, Mysore University, the Secretary, Economic Conference, the Secretary, Education Committee, to all the Presidents of District and Taluk Boards, Municipal Councils, Members of the Legislative Council, Members of the Representative Assembly, Members of the Economic Conference and the principal Aided Agencies in the State.

Letter No. A. C. 534, dated 9th July 1919, from the Inspector-General of Education proposing the amendment of Rule X 4, paragraph 3, of the Grant-in-aid Code.

Order No. 1450-1—Edn. 49-19-2, dated 7th August 1919.

Under the above rule grants to recognised institutions in aid of purchase of furniture and permanent fittings can be disbursed only on receipt of a certificate from an Inspecting Officer that the articles have been supplied and vouchers for payment of their cost have been sent. It is stated that on account of the unwillingness of the villagers to pay the full cost of the articles in advance the budget allotment made last year under "Aided Primary Schools" for this purpose could not be made use of and that the villagers may be induced to contribute more easily if the rule is relaxed so as to require only half the cost to be paid by them, at least in the case of Aided Village Elementary Schools which have no corporate managing body or special funds of their own to advance the cost of the articles. The Inspector-General of Education has accordingly proposed that the rule in question be modified by the addition of the following amendment:—

"But in the case of Aided Village Elementary Day and Night Schools the members of the School Committee will deposit half the cost in a Government Treasury and submit the Treasury receipt along with their application for grant to the Inspecting Officer who is in direct charge of the school concerned; the voucher thus obtained will be forwarded to the Curator, Government Central Book Depot, Bangalore, by an Officer not below the rank of a District Inspector together with his certificate to the effect that articles purchased are for the *bona fide* purposes of the school. The Curator will then supply the articles to the school direct, incidental charges on this behalf being met out of the Depot contingencies."

2. Government are pleased to approve of the proposal of the Inspector-General of Education and to direct that the Grant-in-aid Code be amended accordingly.

Correspondence in matters relating to Education.

No. 1771-80 EDN. 388-18-2

GOVERNMENT OF H. H. THE MAHARAJA OF MYSORE.
GENERAL AND REVENUE SECRETARIAT,
Dated Bangalore, the 20 August 1919.

CIRCULAR.

Government are pleased to lay down the following rules to regulate the correspondence between the different grades of officers in the Revenue and Education Departments in matters relating to Education.—

I. *Correspondence of Circle Inspectors:*—Circle Inspectors and Inspectresses shall correspond with Deputy Commissioners, Presidents of District Boards and Chairmen of Municipal Councils on questions of general policy or principle and on all matters of administrative detail relating to schools within their jurisdiction.

2. *Correspondence of District Inspectors.*—A District Inspector of Education may correspond direct with a Revenue Sub-Divisional Officer or a President of a District Board or a Chairman of a Municipal Council on all matters of administrative detail relating to schools under his jurisdiction.

Correspondence affecting permanently the status of schools and papers relating to the sanction of grants by the Circle Inspector or the Inspector-General of Education and in general matters concerning the administration of such schools shall ordinarily pass through the Circle Inspectors. In cases of emergency, the communications may be sent direct to the Deputy Commissioners and Presidents of District Boards and Chairmen of Municipal Councils, but copies of such correspondence should be submitted to the Circle Inspector for information and, if necessary, for approval.

III. *Correspondence of Assistant Inspectors of Education.*—These officers may correspond direct with Amildars and Presidents of Taluk Boards on matters relating to Elementary schools. On all other matters, they should correspond through the District Inspectors.

IV. *Communications with Municipal Councils.*—Communications addressed to Municipal Councils should be sent through the Deputy Commissioners concerned except in the case of purely routine matters, such as, reminders, calls for statistics, etc which may be sent direct to Chairmen of Municipal Councils.

V. *Forms of address.*—All communications between Inspecting Officers and Revenue or Local Board Officers shall be in the ordinary letter form. Papers transmitted to Presidents and Chairmen without any covering letter should be endorsed "Forwarded".

Government Order No. 5271-5—A. & I. 146-15-2, dated the 24th March 1916, sanctioning a scheme for the institution of scholarships for young men or artizans engaged in practical work in factories or workshops tentatively for a period of three years.

2. Letter No. 3101, dated the 24th May 1919, from the Secretary to the Industries and Commerce Committee, reporting that it is considered quite essential to continue the above scheme for a period of another three years at least, that due provision should be made for the payment of premia to the firms which undertake to train selected students holding superior scholarships and that the value of artizan scholarships should be increased from Rs. 5, 7-8-0 and Rs. 10 to Rs. 10, 15 and 20, respectively, and requesting early orders of Government on the proposals.

Order No. 1252-6—I, & C. 82-18-5, dated 2nd August 1919.

The recommendations of the Industries and Commerce Committee that the scheme may be continued for a further period of three years, and that the value of the artizans' scholarships be raised to Rs. 10, 15 and 20 each per mensem are approved.

2. As regards the payment of premia to the firms which undertake to train students, as suggested by the Inspector-General of Education and recommended by the Industries and Commerce Committee, Government are of opinion that the burden of paying the premia should eventually devolve either on the candidate who is trained and whose earning power has thereby been increased or the employer for whom he is trained and the most that Government may be expected to do is to advance or to contribute a part of the amount in very special cases. Government therefore consider that all such cases should be dealt with on their merits with reference to the qualifications of the candidate, the course of training he is to undergo, the purpose and prospects of his employment, the premia to be paid, the mode of recovery, etc., Government are accordingly pleased to direct that if the Industries and Commerce Committee and the Director of Industries and Commerce are satisfied that any special concessions are needed in this respect in any case, a recommendation may be separately submitted for orders of Government.

Letter No. 364-15, dated 12th August 1919, from the Registrar of Joint Stock Companies in Mysore, forwarding the Report on the working of Joint Stock Companies and Literary Scientific and Charitable Societies in Mysore, during the year ended March 1919, under Regulations III of 1895 and VIII of 1917 and III of 1904 respectively.

Order No. 2168—I. & C. 297-18-5, dated 2nd August 1919.

Recorded.

The delay of over three months in the submission of the report is unsatisfactory and should be avoided in future.

2. The new Companies' Regulation VIII of 1917 came into force from 1st July 1918.

3. Seventeen Companies limited by guarantee are shown to have been working as per Statement IX, whereas it is understood that all excepting the Agricultural Banks at Palhalli and Hongenhalli, have ceased to work. The Registrar is requested to take action to have the names of the Companies as are not working struck off under Section 247 of the Companies' Regulation.

4. It is reported that the forms and registers in vogue under Regulation III of 1895 have not yet been displaced by the forms prescribed under the new Regulation. Early steps should be taken to introduce the new forms.

5. Proposals for strengthening the establishment referred to by the Registrar in the concluding portion of the report may be separately submitted for the orders of Government.

2. Letter No. Books 3526, dated 1st July 1919, from the Comptroller, submitting the draft rules for approval.

(To be read in extenso with the draft rules, *vide* annexure.)

Order No. Fl. 1094-6—G. F. 255-18-4, dated 9th August 1919.

The draft rules are approved.

The Comptroller is requested to take necessary action to bring the rules into effect in communication with the Banks of Bombay and Mysore.

Offg. Financial Secretary to Government.

To—The Comptroller, Mysore Government.
The Secretary and Treasurer, Bank of Bombay.
The Agent, Bank of Mysore, Bangalore.

Letter No. Books 3526 G.—2, dated 1st—2nd July 1919, from the Comptroller to Government, to the Financial Secretary to the Government of Mysore.

As desired in Government Order No. Fl. 6190—G. F. 255-18-2, dated the 20th May 1919, approving of the proposal to have a current account in the Bank of Bombay, Bombay, I have the honour to submit herewith for the approval of Government the draft rules for operating on the Government accounts in the Banks of Bombay and Mysore.

2. These rules are drawn up on the model of those prescribed for operating on the Dewan's Deposit Account with the Bank of Madras and have been slightly modified with reference to the existing procedure in the case of each of the two Banks.

3. Owing to the difficulty of ascertaining beforehand the actual cost of remittance from Bombay to Bangalore and *vice versa* a clause has been added to permit such transfers being made by means of letters. In the case of the Bank of Bombay provision is made for emergent payments by means of telegrams in the words of a special Code.

4. On approval of Government to the draft rules, necessary action will be taken to bring these rules into effect in communication with the Banks.

Rules for operating on the Dewan's Current Deposit Account with the Bank of Bombay, Bombay.

(1) The Mysore Government Account with the Bank will stand in the name of the Dewan of Mysore, but the account will be operated on by the Comptroller subject to the limitations contained in the rules below:—

(2) Under the general or special instructions of the Comptroller, the Bank is competent to receive money paid by whomsoever to the credit of the Dewan's Account with it.

(3) Money should be withdrawn from the Bank only on cheques signed by the Comptroller or one of the Deputy or Assistant Comptrollers specially authorized by the Comptroller in this behalf. Emergent withdrawals may be made on telegrams, words of

a special private Code being adopted for the purpose. All such emergent withdrawals should be authorized by the Comptroller and the telegrams confirmed by letters signed by the Comptroller and countersigned by the Dewan in cases of individual payments exceeding Rs. 30,000.

(4) Cheques for amounts exceeding Rs. 30,000 in each case require the written sanction of the Dewan which may either be recorded upon the cheque itself or communicated separately by letter.

(5) The Comptroller is, however, competent to *transfer* by means of letters or cheques funds to any extent to the credit of the Dewan's Account with the Banks of Madras and Mysore.

(6) The Bank will cash all cheques for ordinary amounts at par at any of its branches.

(7) The Bank will send a weekly statement of account and also an account made up for the odd days of the month after the last week to enable the Comptroller to make up the monthly accounts.

Rules for operating on the Dewan's Current Deposit Account with the Bank of Mysore, Bangalore.

The Mysore Government Account with the Bank will stand in the name of the Dewan of Mysore but the Comptroller will operate on the account subject to the limitations contained in the rules below:—

(2) The Bank is competent to receive moneys paid by whomsoever to the credit of the Dewan's Deposit Account.

(3) Moneys should be withdrawn from the Bank only by cheques signed by the Comptroller or by one of the Deputy or Assistant Comptrollers specially authorized by the Comptroller in this behalf.

(4) Bills and cheques payable at the State Huzur Treasury and presented to that Treasury by the Bank of Mysore, Bangalore, for encashment will be paid by transfer by that Treasury the Bank debiting the Dewan's Account on the authority of statements of bills and cheques so paid by transfer issued by the Treasury.

(5) Cheques for amounts exceeding Rs. 30,000 in each case require the written sanction of the Dewan which may either be recorded on each cheque or communicated separately by letter.

(6) The Comptroller is, however, competent to draw funds to any extent (*a*) for the use of the State Huzur and other Treasuries or (*b*) for payment to the Hon'ble the Resident's Treasury, Bangalore, or (*c*) for transfer to the Bank of Madras, Bangalore, for credit to the Dewan's Account with it. In the first case, the cheque should be drawn in favour of the Huzur Treasury Officer. In the second case the cheques should be drawn in favour of the Officer in charge of the Hon'ble the Resident's Treasury. In the third case, it should be distinctly noted on the cheques that the amounts should be credited to the account of Government with the Bank of Madras, Bangalore.

(7) The Comptroller is also competent to transfer funds to any extent by means of letters or cheques to the account of the Bank of Bombay for credit to the Dewan's Deposit Account with that Bank.

(8) The Bank will have the Pass Book written up and returned to the Comptroller once a month and will also furnish a monthly statement of account with such vouchers and chelans.

2. Government Order No. Fl. 2047-96—G. F. 5-18-29, dated the 23rd October 1918, sanctioning rules for the grant of compensation for dearness irrespective of the price of any particular grain or commodity in the two Cities of Bangalore and Mysore.

Order No. Fl. 1225-74—G. F. 5-19-4, dated 16th August 1919.

In accordance with the orders read above, the grant of grain compensation allowance is sanctioned for the month of August 1919, to the employees in the two Cities of Bangalore and Mysore and all taluks and sub-taluks in the State as indicated below :—

(i) To those drawing a pay exceeding Rs. 16 but not exceeding Rs. 30 per mensem, Rs 3 per mensem.

(ii) To those drawing a pay not exceeding Rs. 16 per mensem Rs. 1-8-0.

(iii) When the pay is less than Rs. 5 per mensem, the extra allowance will be increased so as to bring up the aggregate pay and allowance to Rs. 6-8-0, per mensem.

Letter No. Spl. 13, dated 4th February 1918, from the Comptroller pointing out that under the revised Treasury procedure, the depost receipts of Taluk Treasuries which are not included in the District Treasury Registers required to be examined once a quarter in the same way as the District Treasury Registers by a gazetted officer in conformity with the requirements of Article 252, Civil Account Code, and suggesting that the Taluk Treasury registers may be examined and certified to every quarter by the Sub-Divisional Assistant Commissioner in the course of his tour.

2. Letter No. Spl. 77, dated 11th February 1919, from the same officer, reporting in continuation that his proposal has been incorporated in Article 403 of Mysore Account Code in anticipation of its being approved by Government.

3. Correspondence ending with Letter No. C. 3448—Gl. 17-18,dated 2nd January 1919, from the Revenue Commissioner in Mysore.—

"Referring to your Letter No. Fl. 6122—G. F. 144-17, dated 20th May 1919, calling for my opinion regarding the retention or modification of Article 403 of the Mysore Account Code relating to the periodical inspection of Taluk Treasury Deposit Registers by the Sub-Division Officers in the course of their tours and the entry therein, every quarter of the certificate prescribed in Article 252, Civil Account Code, Volume I, in token of such inspection, I have the honor to state that every Taluk Treasury is at present inspected twice every year once by the Deputy Commissioner, or the Sub-Division Officer and a second time by the District Treasury Officer and that at each inspection the Treasury Deposit Registers are invariably examined by them. I think it should be sufficient if it is made a Rule that the Inspecting Officer should, at the time of such inspection, invariably enter the certificate prescribed in Article 252, Civil Account Code, Volume I, in token of having checked the Deposit Registers.

2. Neither the Deputy Commisioners of Districts nor the Sub-Division Officers will find it possible to hold quarterly inspections and enter quarterly certificates in the Deposit Registers nor do I think that any quarterly examination is really necessary.

Order No. Fl. 1157-66—G. F. 144-17-7, dated 14th August 1919.

Letter dated the 1st May 1919, from Mr. B. Venkoba Rao, Traffic Manager, Mysore Railways, offering to transfer to the Government of Mysore, four per cent Mysore Government pro-notes of Rs. 1,000 each as an endowment for the performance annually, out of interest accruing thereon, of the following services :—

(1) Poorva Aradhana at the Abbur Matt, Channapatna Taluk, of Sri Bramhanya Tirtha Swami on the 10th day of Vaisakha Bahula; and

(2) Dhatri Havana or Vana Bhojana during the first half of Kartika month every year in the same place, the interest income being distributed equally between these two objects.

2. Correspondence ending with letter No. D. Dis. 812, dated 2nd July 1919, from the Deputy Commissioner, Bangalore District, stating that the Amildar of the Channapatna Taluk is agreeable to undertake the direction of the "Sevas" with the help of the Agent of the Abbur Matt.

Order No. 489-92—Muz. 678-18-5, dated 9th August 1919.

Government are pleased to accept the transfer of the pro-notes of the aggregate value of Rs. 4,000, as a specific endowment to be held in trust for the performance of the services stipulated by Mr. Venkoba Rao. The pro-notes may be sent to the Comptroller to Government endorsed as payable to the Dewan. The Muzrai Superintendent will draw the interest as it falls due and remit the amount to the Amildar of Channapatna Taluk in time for the performance of the services.

Sri Gadidam Venkataramanaswami Temple, Devarayagudipalli, Bagepalli Taluk.

No. 436-8—Muz. 730-18-2, dated 4th August 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Proceedings No. 1519-21—Muz. 169-13-2, dated 28th November 1913, sanctioning a revised scale of expenditure in the Sri Gadidam Venkataramanaswami temple at Devarayagudipalli in the Bagepalli Taluk.

(2) Letter No. C. R. 40, dated 27th May 1919, from the Muzrai Superintendent in Mysore, submitting for sanction, proposals for fixing a revised scale of expenditure in the above temple, together with his Memorandum thereon, and stating that the proposals were drawn up by him after personal inspection and enquiry and that the Deputy Commissioner, Kolar District, who was consulted in the matter generally concurs with him and that a few suggestions made by him have been incorporated in the proposals.

MEMORANDUM.

Revision of the Scale of *Sri Gadidam Venkataramanaswami temple* at Devarayagudipalli, Bagepalli Taluk.

The temple has an average income of about Rs. 1,670 per annum as shown in the statement appended. After deducting 25 per cent for repairs and other funds, about Rs. 1,250 is available for expenditure. The total expenditure as per existing scale is Rs. 700. But the actual expenditure including items for which special sanction is being obtained comes to about Rs. 950 a year. These items have also been taken into consideration in fixing the proposed scale.

Establishment.—The temple has no Shanbhog and no Mashalchi. The *Vahanams* are being carried by temporarily hired coolies. In the proposed scale provision is made for a Shanbhog on Rs. 3, a Mashalchi on Rs. 2 and permanent Sripadas at a cost of Rs. 5 per mensem, thus raising the expenditure under this head from Rs. 21 to Rs. 31.

3. *Nityakatle.*—In the existing scale provision is made for a Naivedya of half a seer of rice daily. In the revised scale provision is made for a Naivedya one seer during day and half a seer during night.

4. *Hetchukatle.*—During Jatra there is a large gathering of people who are fed at present by devotees. The Rathotsava day is an important one and the devotees of the temple feel that the feeding on this day at least should be borne by the temple. Accordingly a provision of Rs. 100 for the purposes is included.

5. Thus the total expenditure as per proposed scale is Rs. 1,050 as against Rs. 700 in the existing scale.

6. The surplus at the credit of the temple on 1st July 1917 was Rs. 13,471-12-7.

	Rs.
Uninvested	... 4,971-12-7
Invested	... 8,500-0-0

The temple is a new construction and is in excellent condition. Out of the surplus, a sum of Rs. 10,000 may be appropriated for the General Muzrai Fund leaving Rs. 3,471-12-7, at the credit of the temple.

7. The temple can well bear a contribution of 6¼ per cent for the Muzrai Establishment Fund. There is not much Muzrai work in the Taluk Office. It is sufficient to appoint a Deputy Gumasta on Rs. 12—1—15 for the purpose whose special duty it will be to see to the management of this temple and generally help the Dharmadarsis.

Order No. 436-8—Muz. 730-18-2, dated 4th August 1919.

Government consider the proposals of the Muzrai Superintendent suitable and are pleased to sanction the same.

No. 436-8—Muz. 730-18-2, dated 4th August 1919.

2. The question of levying a contribution on the temple funds towards the Muzrai Establishment Fund will be separately considered and orders passed thereon in due course.

Sri Mallikarjuneswara Swami temple at Mrigavadhe, Tirthahalli Taluk.

No. 477-9—Muz. 727-18-2, dated 9th August 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

Government Proceedings No. 71-2—Muz. 388-12-2, dated 8th July 1913, sanctioning the Deputy Commissioner's recommendation to take the temple of Sri Mallikarjuna Devaru at Mrigavadhe in the Tirthahalli Taluk under Government management and fixing a scale of expenditure in the temple.

(2) Letter No. C. R. 41, dated 27th May 1919, from the Muzrai Superintendent in Mysore, submitting for sanction proposals for the revision of the scale of expenditure in the above temple together with a memorandum explaining the proposals, and stating that the proposals were originally drawn up by Mr. M. Sadasiva Rao, Assistant Secretary, Muzrai Department, after personal inspection and enquiry, that they were further revised by him and that the Deputy Commissioner, Shimoga District, who was consulted states that the scale is suitable and may be adopted.

MEMORANDUM.

Revision of the scale of Sri Mallikarjuneswaraswamy temple at Mrigavadhe, Tirthahalli Taluk.

The management of the affairs of this institution was assumed by Government in 1913. (*Vide* Government Order No. 71-2—Muz. 388-12-2, dated 8th July 1913.)

The income of this institution is Rs. 1,686-8-11 per annum of which Rs. 1,636-3-11 is from inam lands and otherwise, and about Rs. 50 is the Dabbi collection.

ESTABLISHMENT.

The changes proposed under this head are—

(1) Abolition of the place of pateli as it is since found to be unnecessary.

(2) Abolition of the place of Siva performer.

The savings under this item will be Rs. 72 per annum.

NITYAKATLE.

The existing provision for amrutapadi and cocoanuts, etc., are Rs. 90 and Rs. 60 respectively. These are reduced to Rs. 72 and Rs. 48 in the proposed scale resulting in a net savings of Rs. 30 per annum.

HETCHUKATLE.

A place situated as this temple is in the interior of the Taluk without easy access does not require Rs. 150 for car festival expenses. This is cut down to Rs. 100 in the proposed scale. This will bring in an additional Rs. 50 under savings.

MISCELLANEOUS.

The existing charges under this head such as stationery and contingent allowances may continue. A sum of Rs. 52-11-0 at 3½ per cent may be levied as a contribution to the Muzrai Establishment Fund.

GENERAL.

The temple building requires early repairs and an estimate for thorough renovation has to be prepared.

A statement of income and expenditure (present and proposed) is appended hereto.

Order No. 477-9—Muz. 727-18-2, dated 9th August 1919.

Government consider the proposals of the Muzrai Superintendent suitable and are pleased to sanction the same.

2. The question of levying a contribution from the temple funds towards the Muzrai Establishment Fund will be separately considered and orders passed thereon in due course.

Mokhbara at Kolar.

No. 511-13—Muz. 731-18-2, dated 13th August 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Note No. C. R. 40, dated 27th May 1919, from the Muzrai Superintendent in Mysore, submitting for sanction, proposals for the revision of the scale of expenditure in the Mokhbara at Kolar together with his memorandum thereon, and stating that the proposals were drawn up by him after personal inspection and enquiry and in consultation with the local officers and other leading persons interested in the welfare of the institution, and that the Deputy Commissioner who was consulted in the matter has generally agreed to the proposals and that a few suggestions made by him have been incorporated therein

Memorandum.

Revision of the scale of the Mokhbara at Kolar.

In addition to the Cash Grant of Rs. 3,304-8-0, the institution has an average income of about Rs. 70-8-0, from the land forming the compound of the Mokhbara buildings.

2. As a Government Hindustani Boys' School has been newly started in the locality there is no longer any necessity to maintain the Mokhbara Boys' School and it may be abolished and the building rented out, but the Girls' School improved.

3. At present only a sum of Rs. 76-8-0, is being set aside for repairs of buildings, etc. This amount is not enough to meet the requirements of the buildings.

I. Establishment.

4. The cost of establishment as per proposed scale is Rs. 179-4-0, in all per month as against Rs. 180-4-0, in the existing scale.

II. Nityakatle.

5. As the manager of the Mokhbara complained that the allowance in the existing scale for Langar feeding is not sufficient on account of the enhanced prices of the articles to be purchased, the same is raised from Rs. 44-8-0 per month to Rs. 49-8-0 in the proposed scale.

III. Hetchukatle.

6. At the desire of the Mokhbara servants, an expenditure of Rs. 10 is provided for Shabba Khader.

7. The total expenditure as per scale proposed is Rs. 3,172-0-0, as against Rs. 3,227-8-0 of the existing scale. The savings effected out of the total income of Rs. 3,375 is Rs. 203 per year.

8. The surplus at the credit of the institution on 30th June 1918 was Rs. 1,945-6-8 which will be utilized for the repairs now required to the institution.

9. The institution can only bear a contribution to Muzrai Establishment Fund at $3\frac{1}{8}$ per cent which will absorb about Rs. 103 leaving a sum of about Rs. 100 for the periodical repairs of the buildings.

Order No. 511-13—Muz. 731-18-2, dated 13th August 1919.

Government consider the proposals of the Muzrai Superintendent suitable and are pleased to sanction the same.

2. The question of levying a contribution from the funds of the institution towards the Muzrai Establishment Fund will be considered later on and separate orders passed in the matter.

Letter No. 231 of 18-19, dated 6th May 1919, from the Deputy Commissioner, Mysore District, recommending for favourable consideration, an application from Mr. B. Venkatachar and B. Narayana Iyengar, minor, by guardian and mother Ammayamma, praying that the endowment made by late Mr. Chennagaruda Iyengar for feeding pilgrims and Sanskrit students in the Desikar's Sannidhi at Melkote, may be utilized as a charitable endowment to help the Hebbar Iyengars to which community the donor belonged.

Order No. 424-6—Muz. 734-18-2, dated 2nd August 1919.

1. Mr. Bindiganavale Chennagaruda Iyengar executed a will under date 21st February 1902, dividing the wet lands Survey Nos. 83 and 84 in the Agrahar Hanta in the Seringapatam Taluk, 6 acres and 26 guntas in extent and assessed at Rs. 56-5-0, after the demise of himself and his wife as a charitable endowment to feed pilgrims and mofussil Sanskrit students in the Vedanta Desikar's Sannidhi at Melkote and requesting that the charity be conducted under the direction of Government in the Muzrai Department. Mr. Chennagaruda Iyengar himself pre-deceased his wife in or about 1914, and the latter is reported to have died on 8th March 1919, and the bequest takes effect from that date.

2. The present applicants are the descendants of the testator's brother-in-law and apart from the fact they are also legatees under the will, they possess no right to change the purpose or alter the agency by whom the charity is to be managed. Under the circumstances, Government are unable to accede to the request made by them.

3. As requested by the testator, Government are pleased to assume the management of the charity and to direct that its administration be vested in the Muzrai Department.

4. The Deputy Commissioner, Mysore District, is requested to take charge of the properties in question from the persons in possession and to lease them out to the best advantage.

5. The Muzrai Superintendent is requested to submit for sanction, proposals for the utilization of the fund according to the wishes of the Testator.

Order No. 519-20—Muz. 522-18-2, dated 13th August 1919.

The improvements of the Ayurvedic College in Mysore has been under the consideration of Government for some time past; and the Muzrai Superintendent was directed in August 1918, to submit a comprehensive scheme for its re-organisation. He has accordingly submitted a scheme for the re-organisation of the College on up-to-date lines and for the revision of the courses of studies, so as to ensure a sound training in the theory and practice of the system of Ayurvedic medicine.

2. The scheme which is expected to cost Rs. 38,564 per annum against a present expenditure of Rs. 8,092, provides for two distinct courses of study a higher one called the Acharya course, for persons with a sufficient knowledge of Sanskrit and English to be able to study the text books in the original and a lower one called the Vaidya course, for students unable to grapple with the subjects taught, except through the vernacular. Provision is made for a system of scholarships to serve as an encouragement to the students as also for the establishment of a well-founded dispensary with in-patients' wards together with a herb garden, a museum, a laboratory and a pharmacy is also recommended. A curriculum of studies approved by the College Committee as regards Ayurvedic subjects and by the Senior Surgeon as regards modern scientific subjects is also submitted. The scheme as submitted by the Muzrai Superintendent is well considered and exhaustive and the recommendations made by him are on the whole suitable. The Government are accordingly pleased to generally approve of it; but before according their final sanction to it, they desire to have the proposals scrutinized by one or more recognized experts in Ayurveda with a view to improve them in detail. The Muzrai Superintendent is requested to take early action in the matter.

3. It is observed that the proposals of the Muzrai Superintendent do not include any provision for the teaching of Unani system of medicine. He is requested to submit his proposals in this respect for the consideration of Government when passing orders on the scheme. If the Muzrai Superintendent desires to visit some of the better

type of institutions outside the State, so as to obtain first hand knowledge of requirements and to interview any experts with a view to collect information as regards the eligibility of candidates for recruitment to the staff, Government will be glad to arrange for his deputation for the purpose on receipt of a definite programme of work from him.

4. The Muzrai Superintendent recommends the provision of a lump sum of Rs. 70,000, for construction of buildings for the location of the College and its adjuncts and another sum of Rs. 12,100, for initial equipment. Administrative sanction is accorded to these proposals subject to further elaboration of choice of sites, preparation of estimates and the provision of funds.

5. The question of assuring a certain number of appointments to the successful students of the Acharya course every year will be separately dealt with after consultation with the various District Boards and other local bodies, some of whom are now maintaining indigenous dispensaries.

APPENDIX I.

R. C. 1434, dated 4th March 1919.

Subject :—Re-organisation of the Ayurvedic College in Mysore and improvement of the instruction and training imparted therein.

The improvement of the Ayurvedic system of medicine has been under the consideration of Government for some time past in one or other of its aspects. In Order No. 545-50—Med. 71-15-11, dated 27th July 1917, Government passed orders on the recommendations of a committee appointed to consider the problem of rural medical relief to the effect that a central institution at Bangalore may be started to train rural medical practitioners and Ayurvedic Vidvans, and though their proposal to start a combined institution was not accepted, the recommendation to revise the existing course of studies in the Ayurvedic College was agreed to and a detailed syllabus was directed to be drawn up. In their Order No. 3946-49—Med. 40-17-3, dated 23rd August 1918, Government sanctioned four scholarships a year to encourage the combined study of the Eastern and Western schools of Medicine as a first step towards the improvement of the indigenous systems and proposals were called for on other allied matters such as the establishment of an Ayurvedic Dispensary with in-patient wards in connection with the re-organisation of the College, the inauguration of a research bureau for a comparative study of Eastern and Western systems, etc.

2. Of these the most important matter calling for immediate attention is the re-organisation of the College. In his epoch-making Note of the 23rd July 1917, His Highness the Extraordinary Member was pleased to remark that the College in regard to its staff and in other directions seems to be not quite efficient and to be capable of much improvement. That is so and many causes contributed to the situation. At its inception in 1908, the College had at its head an Ayurvedic physician of eminence, but his services were lost by death soon after. Mr. S. Venkoba Rao, B. A., a medical man trained in Western medicine and possessing the qualifications of an Apothecary, succeeded him, but the loss to the College on its Ayurvedic side has not been made good.

3. The first point to be settled in connection with this question is the standard of instruction which should be aimed at. At present neither its quality nor its standard is quite in keeping with the status of the institution as an Ayurvedic College and the students are further handicapped in various directions particularly as regards practical demonstration and clinical training. It would be an advantage to have two courses of study, one higher, for persons with sufficient knowledge of Sanskrit and English to study the text books in the original and the other lower, intended for students unable to grapple with the subjects taught, except through the vernacular. The standard of qualification expected of the former will be comparatively high so that the College *alumni* may find a ready recognition for sound training in other seats of Ayurvedic learning. Students of this calss

will naturally be few and encouragement will have to be given by a liberal system of scholarships and a more or less assured opening in life. In the vernacular course also, sound instruction and training will be strived at, but the standard of proficiency will be distinctly lower and the principal aim will be the wide spread of the knowledge and practice of Ayurveda and the rapid multiplication of fairly competent practitioners to serve the rural population more or less as members of the village organisation. This course will be open to all students who possess a minimum standard of vernacular education and professional Vaidyas who aspire to a wider knowledge of the healing art. In this section, free instruction will be imparted, but ordinarily no stipends will be provided. As far as possible, the text books prescribed will be Kannada versions of compilations supplemented by lectures on specific topics.

4. A syllabus (Appendix III) based on a close and comparative study of the courses of studies in vogue in other important institutions in India was drawn up by me in the first instance and considered in detail by the College Committee and their opinions are herewith submitted. They are, on the whole, in agreement with the syllabus and it may be approved. I wish only to add as an explanation that the scientific subjects such as Physiology, Anatomy and Hygiene will be taught by means of English text books or vernacular versions of the same, while Materia Medica, Medicine and Midwifery according to the Western system will be dropped. The studies will be spread over the whole course and therein the recommendation of the Committee alluded to in Government Order of 27th July 1917, has been departed from as it is no longer under contemplation to establish a combined institution for rural medical and Ayurvedic practitioners. As regards the subjects dropped, they will be replaced by indigenous text books so as to avoid undesirable mixture of systems in the treatment of diseases. Chemistry and Botany as scientific subjects are not proposed to be taught, but they will naturally come in as part of the study of mineral drugs and medicinal plants, and their employment in the Ayurvedic Pharmacopœia.

A detailed syllabus for the studies in Anatomy, Physiology, Sanitation and Hygiene has since been received from the Senior Surgeon and is also put up, it may be taken as Annexure to Appendix III.

5. As an adjunct to the College, an Ayurvedic Hospital and Dispensary run on improved lines with a provision for a dozen beds for in-patients is proposed to be established. On this point His Highness the Extraordinary Member says as follows in the Note referred to above:—

"To obtain a satisfactory proof of the efficiency of the medicines used and the treatment given by the Ayurvedic Pandits and Unani Hakims and to make known to the public any useful drugs possessed by them, provision be made immediately for about a dozen inpatients in one or two important Ayurvedic and Unani Dispensaries and one or two good Pandits and Hakims in the State or from outside be persuaded to be in charge of them and conduct them on the Western methods of recording the nature of the disease, the treatment given and the results obtained in each case."

6. A dissection room, a museum, a laboratory and a herb graden are necessary parts of the College equipment. I would suggest in addition the establishment of a central pharmacy where standard medicines according to well-known Ayurvedic prescriptions may be prepared and distributed throughout the State. This would not only give the students a much needed practical training, but will make standard preparations available for the Vaidyas throughout the State who have neither the skill nor the convenience at the disposal of a central institution. I understand that a similar institution was started recently in Travancore and its preparations have already jumped into popularity. In course of time the Pharmacy and herb garden combined may be worked if not at a profit but at least on a self-supporting basis.

7. A well found library is of course a *sine qua non*, but I would also suggest a liberal provision for the collection of old manuscripts, their collation and publication when really valuable and even stray specifics otherwise known as Siddaushadas of which remarkable instances are constantly brought to notice should be collected for purposes of examination, The Ayurveda lays stress and perhaps rightly so on differing methods of collection, purification and preparation of the same drugs to suit differing conditions of patients and ailments and there is a large literature on the methods and practices awaiting examination. It remains only to make mention here of the accommodation required which will be at once satisfactory and convenient for present needs and sufficient for future expansion. I shall deal with these matters serially in the subsequent paragraphs.

8. It has been found difficult to arrive at any satisfactory estimate of the initial and recurring expenditure that will be found necessary if a complete Ayurvedic institution on the lines chalked out above is to be instituted. No satisfactory data for the purpose are available to me as, so far as I know, there are no institutions complete in all respects which may be taken for comparison. In this connection it may be stated that an estimate seems to have been prepared at the instance of the Maharaja of Rewa, a well known lover of the

Ayurvedic Science, which was published in the Hindi Journal "Sudhanidhi" in its issue of October 1916. It left out some departments now contemplated and still it provided for a recurring expenditure of Rs. 25,000. An extract of the same is submitted for purposes of comparison. This question was also considered in the Dasara Representative Assembly Committee appointed last year for the study of 'medical relief to rural population.' The Committee were of opinion that an initial expenditure for buildings of Rs. 50,000 and a recurring expenditure of Rs. 23,000 a year under dispensary, college and scholarships may well be incurred for a combined Ayurvedic and Unani institution.

9. *College.* An initial expenditure of Rs. 50,000 for buildings and equipment is laid down as a rough estimate, but the actual cost will depend upon the nature of the structure to be brought into existence and the extent of the accommodation provided. If the building is to be put off for the present and work started in some available building rented or otherwise, an initial outlay of Rs. 3,000 will be necessary to provide the requisite furniture, etc.

10. Under recurring expenditure, the main item is the staff to be entertained. A Principal combining in himself a knowledge of the Western and Ayurvedic systems of medicine will be a desirable acquisition and if one with such qualification cannot be had, an Ayurvedic practitioner of eminence should be brought in for the place. The pay will of course have to be fixed by negotiation, but a pay of Rs. 400—$\frac{50}{2}$—500 is tentatively provided. Under him there will be a lecturer in Western scientific subjects who will ordinarily possess a degree qualification on a pay of Rs. 200—20—300 and a Chief Pandit on Rs. 150—10—200 who will be a practitioner of eminence in the profession and who will also be in charge of the Hospital. In addition, there will be two senior Pandits on Rs. 100 who will ordinarily take the students of the higher course and two junior Pandits on Rs. 70 who will take students of the lower course. A demonstrator ordinarily of the Sub-Assistant's grade will help in dissections and in the teaching of Western science to the students of the vernacular course and a demostrator of the Pandit class will help in the laboratory work. The other appointments do not call for any special remark, being the ordinary clerical and menial staff required to run an institution of the kind. A lump sum provision of Rs. 100 a month for laboratory and demonstration charges is made and it is believed that it is no more than what will be absolutely necessary. The total recurring expenditure will under the scheme work out at Rs. 1,572-10-8 a month or Rs. 18,872 a year.

11. Before leaving this part of the subject, I wish to say a word or two as regards the recruitment of qualified men for the various posts. From such enquiries as I have been able to make, it seems that there are only two localities in India where the practice of Ayurveda is still a living tradition, *viz.*, Bengal and Travancore and it is noteworthy that there is a marked difference in the methods of treatment adopted at these two places. In Bengal, prominence is given to Tantrik works on Rasavada and minerald rugs are largely used, while in Travancore special emphasis is laid on Ashtanga Hridaya and vegetable drugs are preferred. These seem to be the two extremes to which approaches are made in varying degrees at other centres. I would suggest a representative of both these schools in the senior ranks of the College staff, at least for some years to come until our men have learnt the lessons these have to impart. It is to Bengal we will have to look, if we decide to appoint to the Principalship a man of superior qualifications combining in himself high proficiency in Ayurveda with a diploma in Western medicine. The contract may be for a term of years until we have a local medical graduate who is also trained in Ayurveda according to the new scheme of scholarships recently sanctioned by Government. The Chief Pandit may well be from Travancore. The remaining places will afford ample scope for local talent though I would suggest one of the places being reserved for a Pandit from the Telugu country and another for a Pandit from the Tamil country. These suggestions are made with a view to concentrate for some time to come at one place representative members of the various local schools, so as to make possible exchange of views and ideas and collection of stray information scattered in the vernacular literature of the place. Please see list of books in Telugu and Tamil appended to Government of Madras Order of 19th November 1917.

12. *Hospital and Dispensary.*—An initial expenditure of Rs. 20,000 for building and equipment is provided and an initial expenditure of Rs. 2,400 for equipment alone if any existing building is made available for the purpose. Under recurring expenditure, a resident Ayurvedic physician on Rs. 100 is provided, the Chief Pandit of the College being the officer in charge. In addition another Pandit has to be appointed for charge of the out-patient dispensary and he will also give some relief to the resident Pandit in looking after the wards. The other provisions do not call for any special remark. The total cost will be Rs. 644 a month or Rs. 7,528 a year. The medicine charges are advisedly placed low as a herb garden is to be run in connection with the College.

13. *Library and Museum.*—A Librarian on Rs. 35 and two attenders on Rs. 15 each under him are provided, one for the library and the other for the Museum section and a

lump sum provision of Rs. 500 for the purchase of books, charts, models and specimens is made together with another sum of Rs. 500 for the collection, collation and preparation of manuscripts for the press. The initial expenditure is estimated at Rs. 2,500.

14. *Herb Garden.*—The laboratory assistant will be in charge of the garden, but he will be assisted by a Mestri on Rs. 20 and 4 gardeners at Rs. 10 each with a contingent allotment of Rs. 200 a year. An initial expenditure of about Rs. 3,000 will be required to properly enclose and prepare 5 acres of suitable land which is the extent proposed to be taken up in the first instance. It is expected that the garden which will supply the ingredients for Pharmacy and also sell herbs to the public at a reasonable price will in course of time be self-supporting.

15. *Pharmacy.*—Though this is not strictly connected with the College scheme, it is introduced here, as such an institution if started in the interests of the improvement of Ayurvedic practice, is best run in connection with the College. Most of the work which will be done in the Pharmacy will otherwise have to be undertaken in the College laboratory on a smaller scale for demonstration purposes. The Pharmacy will undertake to prepare only standard medicines for distribution to the public or to medical practitioners and will also serve as a store for the collection and distribution of pure and genuine medical material. Obviously an estimate for such concern depends upon its magnitude, but even on a small scale an initial expenditure of Rs. 1,200 and a recurring expenditure of Rs. 250 appear to be necessary. I have already pointed out that such an institution has recently been started with much public appreciation in connection with the Ayurvedic College at Trivandram, *vide* a cutting from the Dewan's address to the Sri Mulam Assembly a few days ago.

16. The last item to be taken up for consideration is the number and value of scholarships and stipends that are to be provided. I have already touched upon the reasons why I consider it sufficient to confine the scholarships to the students studying for the higher course. The scholarships will have to be tenable for five years and may be fixed at the value of Rs. 10 for 1st two years, Rs. 12 for next two years and Rs. 15 for the last year. The number of students to be recruited annually may be fixed at 8 and the total recurring cost will be Rs. 472 a month when the scheme is in full operation. In addition a lump sum provision of Rs. 50 may be provided to give small stipends in deserving cases to the students of the lower course who will also have the benefit of all savings from the scholarship allotment for the higher course when such stipends should lapse or be forfeited or not applied for. It will no doubt be an advantage to have a students' home with sufficient accommodation built near the College to house all mofussil students. This is only mentioned here, but no provision is made therefor. It will be a matter for future consideration and action.

17. Detailed statements showing the expenditure required under the various items are appended *vide* Statement II. It will be seen therefrom that the scheme as a complete whole will cost an initial expenditure of about Rs. 12,100 and a recurring expenditure of Rs. 38,564 per annum, not to mention another sum of about Rs. 70,000 if convenient buildings to serve the purposes of the College and Hospital are to be constructed anew. It is appreciably in advance of the Rewa scheme as more liberal pay has been provided for the senior members of the staff so as to secure men of really high qualifications. Besides a herb garden and Pharmacy at a cost of nearly Rs. 4,000 a year and a scheme of scholarships to encourage the study at least for some years to come have also been included in the scheme. It is no doubt very much beyond the limits of present expenditure which is only Rs. 7,420-0-0 a year all told, but the institution is a College only in name and the instruction imparted has been condemned on all hands. If the institution is to be maintained at all, it is worth maintaining on the most efficient and up-to-date lines. Otherwise it will be poor service done to the cause of Ayurveda which is beginning to be recognized as a system most fitted to furnish cheap and ready remedies for the ailments of rural population, not to speak of the large allegiance it finds on the score of its being more suitable to the tropical climate and the peculiar customs and habits of the people.

18. There is an allied matter on which a word may also be said, *viz*, the openings which exist and which may be created for affording an assured and honourable livelihood to the products of the College who have to undergo an arduous course of training. To a large extent the success attending upon a practitioner depends upon his individual skill, but until the profession is placed on a stable footing and wiped clear of all odium inherited by generations of incompetent practitioners, some public recognition will have to be given if candidates of the right stamp are to be attracted for the study. It may perhaps be sufficient if the Government should declare that they will have a preferential claim for appointment to the charge of Vaidyasalas maintained at the expense of Government of Local Boards and that their emoluments and professional privileges will be on a par with those of Sub-Assistant Surgeons. I would, however, suggest that for a term of years a

promise of appointment be held forth to the first two or three men in each batch of students coming out successful in the Vidwan course. There would be a vacancy or two in the existing number of Vaidyasalas and one or two more may be brought into existence every year.

19. It would be seen that throughout I have advisedly confined myself to Ayurveda alone without taking into consideration the sister system of Unani. I have herein followed the direction of Government in their Order No. 2407-16—Muz. 929-12-4, dated 12th March 1914, stating that it was inexpedient to enlarge the scope of the Ayurvedic College and that instead, the Government would be prepared to grant scholarships to students who are prepared to undergo a course of study and training in the Unani system in a recognized institution of the kind.

20. In Government Order No G. 3946-49—Med 40-17-3, dated 23rd August 1918, already referred to in the opening paragraphs of the Note, I was desired to submit a report in consultation with the Senior Surgeon on the institution of a Research Bureau with other allied matters. In this connection I would humbly represent that the matter is hardly ripe for consideration when the re-organisation of the College is still under accomplishment. The strengthening of the staff by the introduction of qualified practitioners who will be entitled to speak with authority on Ayurvedic methods and practices is a preliminary requisite if the exponents of the Western system should give a hearing to the other side or treat their opinion with consideration and respect. The method adopted in Madras of deputing a Western trained medical man to go about collecting information about drugs and specifics used by the indigenous practitioners with a view to subject them to analysis and tests independently of their place in the treatment of diseases may no doubt help the Western medicine to acquire knowledge of a few Eastern drugs, but it can hardly be called a comparative study of the differing systems A bureau of the right kind in the existing condition of the indigenous profession in the State is, I am afraid, premature and I would therefore suggest its consideration being postponed for the present"

APPENDIX IV.

MEMORANDUM.

Two systems of teaching Ayurveda are in vogue in the Colleges of India. One is the system of confining the teaching to certain standard text-books with practical instructions by experienced professors. The other is the system of delivering courses of graduated lectures according to a prescribed syllabus of subjects helped by references to standard text-books on each topic with practical laboratory, dispensary and clinical work.

The former is after the model of teaching ancient scriptural texts in a reverent and semi-religious spirit and is the one followed in the Colleges at Madras and Mysore. The latter is the one originally contemplated for an All-India Ayurveda Vidyapitha by Mr. Gananatha Sen of Bengal and subsequently adopted in the Colleges of Northern India and Travancore with modifications of sorts to meet local needs and conditions. It is this system that is in vogue in modern scientific and medical institutions in the West. Each system has its own advantage but if an advance in knowledge is the desideratum, a comparative study of the treatises extant on a subject seems to be essential. The other method tends to crystallisation, a result which is fatal to a vital science like medicine.

The present draft is based upon the Vidyapitha and Travancore syllabus with slight alterations to suit local needs. Recent available information on the subject has been incorporated as far as possible. The instruction is proposed to be conveyed to two grades of students, a higher or Vidvat Course and a lower or Vaidya Course.

G. ARAVAMUDU IYENGAR,
Muzrai Superintendent.

REVISED SYLLABUS OF STUDY FOR THE AYURVEDIC COLLEGE AT MYSORE.

RULES.

1. In examinations importance should be attached only to subjects of study, but not to books other than Charaka Samhita, Susruta Samhita and the Ashtanga Hridaya of Vagbhata.

2. The study of the portions pointed out in text-books is intended to help students to obtain a fair knowledge of the subjects prescribed. But the instruction should be supplemented by a comparative study of other recognised text-books, and in this study the teachers should help by means of notes and lectures.

3. The syllabus prescribed is intended to cover a course of five years and the periods include the time to be spent in practical work.

4. As a rule the Western subjects such as Anatomy, Physiology, Hygiene, etc., though included in the detailed syllabus, will be taught by means of suitable text-books in English but the students will be required to have a comparative knowledge of the Ayurvedic teaching on the subjects, and the points of difference between the two systems.

5. Outside students who have attained proficiency in medical science without undergoing training in the Mysore College may be allowed to appear for any of the examinations on obtaining special permission from the authorities concerned, but they shall not be entitled to the College certificate without proof of a satisfactory practical training for two years under a recognised practitioner or of having practised the art for a period of five years.

6. Examinations will be held both in theory and practice and shall consist partly of written papers and *viva voce* questions with examination of patients and diagnosis of diseases and practical preparations of medicines.

Curriculum of Studies for the Higher Course.

I. *Sarira Sastram.* (Physiology, Anatomy and Histology.)

II. *Dravyaguna Sastram.* (Materia Medica, Pharmacy and Therapeutics.) The properties and uses of materials, together with the technology (Paribhasha thereof).

III. *Rasa Sastram.* (Indian Chemistry or the Science of metals and minerals.) Purification, medicinal preparation and uses of metals, minerals, etc.

IV. *Swasthavrittam.* (Hygiene and Sanitary Science.) Includes Engenics, Vaccination, Inoculation, Disinfection, etc.

V. *Roguvijnanam.* (Pathology, Symptomology and Bacteriology.) Diagnosis of alkalines of diseases, their Etiology and Symptomology.

VI. *Kayachikitsa.* (Medicine.) Knowledge of medicines such as Rasayanas (Alteratives) and Vajikarana (Aphrodisiacs) and treatment of all kinds of diseases, Endemic and Epidemic, pertaining to women, children, etc.

X. *Manasaroga.* (Mental Diseases.) Their knowledge and treatment.

XI. *Agadatantra.* (Toxicology.) Varieties of poisons and treatment of their effects.

XII. *Vyavaharayurveda.* (Medical Jurisprudence.) Knowledge requisite for the purposes of evidence in medico-legal cases.

XIII. *Pasvayurveda.* (Veterinary Science.) Diseases of animals and their treatment.

XIV. *Ayurveda-Itihasa.* (History of Ayurveda, its development and vicissitudes.)

SYLLABUS FOR THE HIGHER COURSE.

I. Sarira Sastram.—(Anatomy, Physiology and Histology.) Knowledge obtained from practical study and dissection:—

(*a*) Origin of the body. Its constituent Parts. Their functions, Description of each with its limbs.

The nature of pure and impure *Sukra* (Semen) and *Artava* (menstrual fluid.) The uses of the knowledge of Sarira.

The technical terms (*Paribhasha*) of *Sarira.*

(*b*) Description of bones (*Asthi*). Their uses materials, varieties, number, location. Re-conciliation between the ancient schools and the modern and a general knowledge of the modern teachings.

(*c*) Description of joints (*Sandhi*) materials composing them, different kinds, functions, the substratum of *Sleshma, Kala,* ligaments binding the joints. General knowledge of joints.

(*d*) Muscles (*Pesi*). Their nature, different kinds, fuctions. Nature of *Kanadra* (Tendons), structure of muscles, their situation, a general knowledge of their functions.

(*e*) Circulation (*Rakta Samvahana.*) Heart (*Hridaya*). Its position, nature, structure, functions, nerves and vessels connected therewith, vein (*Sira*). Arterv (*Dhamani*). General description of *Rasayanis* (Lymphatics), nature of *Sonita* (blood) *Lasika* (Lymph) and the Lymphatic glands.

(*f*) Respiratory organ. Nostrils, Vocal chords (*Swarayantra*), Cheek, Neck, Windpipe (*Kloma*), Lungs (*Phusphusa*), their general description, pleural envelop (*Phusphusa-Chhada*), Tissues (*Kala*), other peculiarities in the cavity of the chest. The use of Respiration, its Process.

(*g*) Digestion. Cavity of the mouth, Tongue, Salivary glands, Teeth, Lips (*Dantaveshtana*), Palate (*Adhijihva*) Uvula (*Upajihva*) Epiglotis (*Kakalakam*), Oesophagus or Deglutive passage (*Annamarga*), Stomach (*Amasaya*), smaller Intestines (*Kshudrantrani*), upper part of the smaller intestines (*Grahani*), large intestines (*Brihadantrani*) Rectum (Unduka), Membranous covering of the intestines (Antradharamahakala), Glands at the root of the intestines (*Antramulastha Granthayah*), Lever (*Yakrit*), Gall-bladder (*Pitta Kosa*), Pancreas (*Agnyasaya*), Spleen (*Pliha*). Their position, form, structure functions, etc., Knowledge of the process of digestion.

(*h*) Genito-Urinary organs. Kidneys (*Vrikka*), urinary duct (*Mutrasrotasi-Gavinyau*), bladder (*Mutrasaya*), secretion of urine (*Mutraprascka*), Genital organ (*Sisna*), semenal glands (*Purusha Granthi*) semenal duct (*Sukra Srotasi*), testicles (*Sukradharau*), Scrotum (*Phalakosau*), Testis (*Bijakosau*), semenal vesicles (*Bijasrotasi*) Uterus (*Garbhasaya*) Vagina (*Apatyapatha*). Knowledge of position, form, structure etc., of these.

(*i*) Brain and Nervous system: (*Samastishkanadi-Vijnana.*) Cerebram or brain (*Mastishka*) membranous covering (*Avdranya Kala*), Cerebellam or Lesser Brain (*Anumastikam*), Spinal column (*Sushumna-Kanda*), Spinal chord (*Sushumna-Nadi*) and other peculiarities of its structure and contents.

No. 519-20—Muz. 522-18-2, dated 13th August 1919.

Structure and classification of nerves (*Nadiswarupa Bhedah*). Functional peculiarities (*Kriyavaiseshya*), position of *Ida* (afferent) and *Pingala* (efferent), nerve gangleons (Nadigranthis), nerve centres (*Nadichakras*).

(*j*) Senses (*Indriyas*); *Netra* (eye), *Netraguha* (eye-socket), *Netragolaka* (eye ball), *Drishti Nadi* (Retina), *Netrapeshya* (muscles of the eye), *Asrugranthi* (Lachryma gland), *Asrumarga* (Lachrymal passage).

Ghranendriya (organ of smell) *Ghranamarga* (passage of smell), *Ghrana Nad* (olefactory nerves).

Srotrendriya (organ of hearing). *Srutimarga* (passage of hearing), *Srutipatahe* (Tympanum), *Srutisambuka* (ear-labyrenth), *Srutinadi* (auditory nerves) *Karnapali* (ear canal), function, position, form and structure of these. Descrimination of stimulus knowledge and response or reaction.

(k) *Marmasthana Vijnanam*. Knowledge of vital parts mentioned in medica science.

Books.—Portions concerned from the Sariras of Charaka, Susruta, and Vaghbhatta and Agnipurana Part I, Adhyaya 370.

Modern English Text-books that may be prescribed.

II. DRAVYAGUNA SASTRA. (Materia Medical, Pharmacy and Therapeutics)

(*a*) The terms *Dravya, Guna, Rasa, Virya, Vipaka* and *Prabhava* and their significance.

The meaning of the properties of materials such as *Mridu, Tikshna*, etc.

Descriptions of *Rasa, Virya* and *Vipaka* and their methods and qualities.

Letter No. G. C. 474—Encls. 3, dated 17th February 1919, from the Senior Surgeon with the Government of Mysore, to the Chief Secretary to the Government of Mysore.

With reference to your letter No. 6324—Med., dated 10th May 1918, I enclose draft of the syllabus each of the marginally noted subjects to be studied in the first and second year by the students of the Ayurvedic College in accordance with the Government Order No. 545-50—Med. 71-15-11, of 27th July 1918. As regards Materia Medica, I am not sure if English Materia Medica will be of any practical benefit to students of the indigenous systems of medicine. Syllabus in Indian Materia Medica will have to be prepared by the Professor in that subject, to be appointed in the Ayurvedic College in order that the distinctive individuality of the Ayurvedic and Unani systems may be undisturbed. Text books on the several subjects, in the vernaculars in which the teaching in the Ayurvedic College is carried on will have to be prepared or details of lectures prepared by the Professors concerned.

Anatomy, Physiology, Sanitation, and Hygiene.

No. 519-20—Muz. 522-18-2, dated 13th August 1919.

As regards the admission of students of the Ayurvedic College in the local medical school, I beg to state that the general educational qualifications fixed for admission to the Ayurvedic College being so low as the Lower Secondary standard, these students will not have the capacity to understand and follow the teaching in the Medical School, which is of a much higher standard requiring at least the Matriculation or School Final qualification. Admission of students not possessing the School Final qualification is also not allowed by the rules sanctioned by the Government in connection with the establishment of the Medical School. Government Chattram at Ramnathpur, Arkalgud Taluk.

No. 694-6—Muz. 787-18-2, dated 27th August 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Note No. R. C. 170, dated 28th June 1919, from the Muzrai Superintendent in Mysore, submitting for sanction proposals for the revision of the establishment and other charges in the Government Anna Chattram at Ramnathpur in the Arkalgud Taluk, together with his memorandum thereon, and stating that the proposals were drawn up by him after personal inspection and enquiry and that the Deputy Commissioner who was consulted in the matter generally agrees to the proposals and that a few suggestions made by the latter have been incorporated therein.

Memorandum.

Proposals for revising the establishment and other charges in the chattram at Ramnathpur, Arkalgud Taluk.

The chattram is endowed with a cash grant of Rs. 101-2-0 per mensem.

The following establishment is maintained:—

		Rs.	a.	p.
1.	Parpathegar	4	0	0
2.	Cook	3	10	0
3.	Paricharak	3	10	0
4.	Devarapuja	1	3	0
5.	Jhadmali	1	1	0
	Total ...	13	8	0

In addition to their pay and being fed once a day, each of the above servants gets an allowance of fifteen seers of rice with condiments for night meals. If commuted into cash the disbursement of the Nehimi to chattram servants alone comes to Rs. 26.

Besides half seer of rice with condiments and one seer of rice without condiments are being given to the Pujaris of the chattram Vinayaka and Pattabhi Ramaswami and these will come to Rs. 10-8-0.

A sum of Rs. 6-13-4 is being expended every month for the clerical establishment maintained in the Taluk and District Offices. The total charges on account of the establishment and Nehimi therefore come to Rs. 56-13-4 a month, leaving a balance of Rs. 44-4-8, for Santarpane and other expenses.

The Rathotsava of the Sri Subramanyaswami is celebrated every year in Margasira month, *i.e.*, either in December or January. The tasdik after deducting the pay of the establishment of the chattram for the month on which the Rathotsava falls is wholly used for the conduct of a day's Santarpane on Margasira Sudha Ashtami and the chattram is stopped for the whole month, much to the inconvenience of the *bona fide* travellers. The authority for such a diversion is not traceable. The present Parpathegar who has been in the place during the past twenty-eight years states that this practice is in vogue during the past few years and not prior to that. The appended statement shows the total number of persons fed, rations issued and the total cost incurred under Santarpane and Nehimi charges.

The chattram affairs do not seem to be satisfactory. Of the three Dharmadarsis appointed some years back, one is now dead and no substitute has been appointed. The remaining two do not seem to take much interest in the chattram affairs. There should be the same set of Dharmadarsis for the temples and the chattram.

The provisions required for the chattram are not purchased on monthly indents prepared beforehand, but weekly purchase is made on the sole responsibility of the Parpathegar. No *chits* for being fed or rations issued are issued by any responsible person. The Parpathegar enters them in a book maintained for the purpose and the signatures of the persons seem to be taken in a most whimsical manner.

No. 694-6—Muz. 787-18-2, dated 27th August 1919.

The chattram grant may be re-allocated as follows:—

		Rs.	a.	p.	
1.	Parpathegar	5	0	0	with one meal.
2.	Cook and Paricharak	6	0	0	with one meal and ½ seer of rice for night meals.
3.	Devara Puje	2	0	0	with one meal. Should attend to Gandhakshate also.
4.	Sweeper and caretaker	5	0	0	
5.	Puje of Vinayaka Devaru	1	0	0	
	Total ...	19	0	0	per month.
	or	228	0	0	per annum.
	Daily feeding and issue of rations to Byragis ...	50	0	0	
	Disbursement of Nehimi allowances				28 seers of rice at Rs. 16 a palla
	1 seer of rice per day to the archak of the Sri Pattabhiramaswami temple	4	8	0	
	Sri Pattabhiramaswami temple for Desantrikatle. Cost of rice Rs. 5 / Curds, etc. Rs. 3	8	0	0	
	Contingencies (lighting, etc.)	2	0	0	
	Total ...	64	8	0	per month.
	or	774	0	0	per annum.
	Contribution to Muzrai Establishment Fund at 6¾ per cent	75	0	0	
	Reserve for repairs	136	0	0	
	Grand Total ..	1,213	8	0	

During the months of Tula and Margasira when the influx of people to the chattram is said to be great one Paricharak on suitable remuneration may be temporarily appointed.

The utilization of a month's tasdik for a day's feeding during the Rathotsava of Sri Subramanyaswami will be discontinued as the temple can afford to do it.

The occupation of a room in the main building by the Jhadmali in the chattram is opposed to rules and he should be asked to vacate it.

The provisions required for the chattram should be purchased on indents previously prepared and approved by the Amildar.

The purchase should not independently be made by the Parpathegar, but it should be on a contract basis. The signatures of the persons fed should invariably be taken in a book kept for the purpose.

The chattram had a cash surplus of Rs. 1,155-11-3 on 30th June 1917.

Order No. 694-6—Muz. 787-18-2, dated 27th August 1919.

Government consider the proposals of the Muzrai Superintendent suitable and are pleased to accord sanction to the same.

2. The question of levying a contribution on the income of the institution towards the Muzrai Establishment Fund will be separately considered and orders issued in the matter in due course,

Sri Rameswaraswami Temple at Keladi, Sagar Taluk.

No. 699-701—Muz. 7-19-2, dated 27th August 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Proceedings No. 1723-4—Muz. F. 31-92, dated 15th November 1904 xing a scale of expenditure in the Sri Rameswaraswami temple at Keladi in the Sagar Taluk.

2. Note No. 1380-2—R. C., dated 4th July 1919, from the Muzrai Superintendent of Mysore, submitting for sanction, proposals for the revision of the scale of expenditure in the above temple and stating that the Deputy Commissioner who was consulted in the matter is agreeable to the same.

MEMORANDUM.

Revision of the scale of expenditure in the Sri Rameswaraswami temple at Keladi, Sagar Taluk.

The temple is of historical importance having been built by the Keladi Chief Sadasivappa Naik in about 1603 A. D.

The chief source of income is from inam lands, 436 acres and 36 guntas in extent and assessed at Rs. 1,302-12-0 with a quit-rent of Rs. 281-1-0 including the Railway cess newly imposed. These lands are situated in the villages of Keladi, Bellur, Siravala, Melavaragi and Bilegrama of the Sagar Taluk.

The income of the temple from all sources amounts to Rs. 3,800 a year exclusive of the interest earnings on the invested surplus. Two statements one showing the average receipts during the previous five years and the other the estimated income of the temple are hereto appended.

The existing scale was fixed in 1904, on an estimated income of Rs. 2,122-0-8, which included a sum of Rs. 253-8-8 being the interest on the invested surplus of Rs. 5,000 which during the past thirteen years has amounted to Rs. 31,000 and odd. Since the fixing of the existing scale the income of the temple has nearly doubled itself due to the rise in the price of paddy.

In the existing scale the remuneration to temple servants is fixed in kind. The same mode of payment is adopted in the proposed scale also.

Establishment.—

In the proposed scale, additional provision is made for a flowerman, a peon, a washers ofan and boyis. The present cost of establishment inclusive of Upadhis is 331 Khandie-K paddy and this is increase to 525 Kandies per annum, resulting in an increase of 194 mandies.

Nityakatle.—

In the existing scale, 81 Kandies of paddy are provided per annum for daily Naivedya and Rs. 104 for Nandadeepa and purchase of other puja articles. In the scale proposed paddy for daily Naivedya is increased to 108 Kandies and cash for Nandadeepa and purchase of sundry puja articles has also been increased to Rs. 156 per annum.

Hetchukatle.—

In the existing scale, 19 Kandies of paddy are allotted for car festival Santarpane and Rs. 135 for festival expenses and a sum of Rs. 62 is allotted for special services. As the price of ghee and other articles has risen considerably since 1904 and the attendance of devotees of the car festival has also increased, 6 more Kandies are allotted for Santarpane and the car festival expenses have been increased by Rs. 65 per annum. Similarly the provision for other items is also increased resulting in a net excess of Rs. 69 a year.

Miscellaneous.—

In the existing scale provision is made only for payment of Kandayam which was Rs. 261-11-9. This has since been increased to Rs. 282-1-0, due to levy of Railway cess at 3 pies per rupee. In the proposed scale provision is made accordingly. Besides an annual allowance of Rs. 12 for purchase of stationery articles and petty repairs to vessels etc., and Rs. 36 per annum (at Rs. 3 per month) for maintaining 3 kerosene lights in the

temple premises are also provided for. Provision is also made for the annual white-washing and petty repairs of the temple. The total expenditure therefore comes to Rs. 2,562-8-0, leaving a balance of Rs. 1,237-8-0, for temple purposes. A contribution of 6¼% on the total income of the temple exclusive of the interest on investment may be levied.

In connection with the temple, a Patasala which can give the local Brahmins some education in Sanksrit, Adhyayana, etc., may well be established. Separate proposals in this matter will be formulated.

Order No. 699-701—Muz. 7-19-2, dated 27th August 1919.

Government consider the proposals of the Muzrai Superintendent suitable and are accordingly pleased to sanction the same.

2. The question of levying a contribution on the income of the institution towards the Muzrai Establishment Fund will be separately considered and orders passed thereon in due course.

3. Proposals for establishing the Patasala referred to in the Note read above may be expedited.

Sri Rameswara Devaru Temple at Ramnathapur, Arkalgud Taluk.

No. 480-2—Muz. 788-18-2, dated 9th August 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Note No. R. C. 170, dated 28th June 1919, from the Muzrai Superintendent in Mysore, submitting for sanction proposals for the revision of the scale of expenditure in the Sri Rameswara Devaru temple at Ramnathpur in the Arkalgud Taluk together with his memorandum thereon, and stating that the proposals were drawn up by him after personal inspection and enquiry and that the Deputy Commissioner who was consulted in the matter generally agrees to the proposals and that a few suggestions made by him have been incorporated therein.

MEMORANDUM.

Revision of the scale of expenditure of Sri Rameswara Devaru temple at Ramnathapur, Arkalgud Taluk.

Besides the cash grant of Rs. 429-13-0, the institution gets a small income of about Rs. 225 from lands and vrittis. Though the income of the temple is thus much below the margin owing to the great religious sanctity attached to it and its local importance, I would propose its being treated as a major institution with a view to its resources being conserved and services improved. As it is, the worship in the temple leaves great room for improvement.

As many of the unimportant posts are either vacant or neglected, advantage has been taken of this opportunity to reduce the number of posts and increase wherever possible the emoluments. The total provision in the proposed scale for establishment is Rs. 15 per month as against Rs. 13-12-0 in the existing.

Under the head Nityakatle 4 seers of rice daily was being distributed among the servants, but as the temple cannot afford the expenditure the rice expenditure is now confined to what is required for the purpose of Nivedana. The provision of Rs. 180 for Rathotsava expenditure has also been reduced to Rs. 100.

Thus the total expenditure in the proposed scale including a percentage contribution of 3½ per cent for Muzrai Establishment Fund or Rs. 20 and the cost of purchasing cloth, comes up to Rs. 592 which leaves just a small sum of Rs. 60 for repairs and other contingencies.

Surplus at the credit of the institution on 30th June 1917 was Rs. 320-4-0 uninvested and Rs, 183-10-0 invested.

Order No. 480-2—Muz. 788-18-2, dated 9th August 1919.

Government consider the proposals of the Muzrai Superintendent suitable and are pleased to accord sanction to the same.

2. The question of levying a contribution on the income of the institution towards the Muzrai Establishment Fund will be separately considered and orders issued in the matter in due course.

Rules for the preparation of Tank Projects.

No. P. W. 456-68—B. 1451-63, DATED 1ST AUGUST 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

Order No P. W. 456-63—B 1451-63, dated 1st August 1919.

At present, the procedure in regard to selection of irrigation projects is not well defined, and the following rules are laid down for guidance :—

(1) Estimates for the restoration and repairs of tanks should be prepared in the order of urgency and importance. This will be decided in consultation with the Deputy Commissioner of the District.

(2) The Executive Engineers of Divisions should be asked not to take up the detailed preparation of a project until all the preliminaries, including contribution from raiyats are settled and administrative sanction is given by competent authority.

(3) A list of major tanks in each district should be maintained in the form annexed.

(4) Tanks, the cost of retoration of which does not exceed ten years' revenue, must first be restored in preference to those requiring a larger outlay.

(5) Restoration of tanks, involving extension of irrigation under them and consequently a large capital outlay to prove remunerative; should be carefully investigated, in the order of their urgency and importance, and should be taken up as funds become available.

(6) Tanks for which raiyats come forward with liberal contributions should have preference, but the question of contribution should first be settled.

N. B.—Exception.—In cases, however, of those tanks whose condition is such as to cause damage to those lower down the series or to a railway line, their restoration should be undertaken without regard to the conditions set forth in rules *supra*.

(7) The list of sanctioned works maintained in each District should be verified each year before the budget programme is drawn up and only such works which could be taken up during the year should be provided for therein.

2. These rules should be brought into force with effect from the current year.

Maximum Free Allowance of Water.

No. P. W. 570-5—M. 1808-13, DATED 9TH AUGUST 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

READ—

(1) Government Order No. P. W. 766-71—5269-74, dated the 29th June 1912, sanctioning revised rules for the regulation of water-supply in the City of Bangalore.

(2) Government Order No. P. W. 1779-84—9626-31, dated the 8th August 1918, constituting a Committee to concert measures for reducing the consumption of water in Bangalore City.

(3) Minutes of the meeting of the Committee held in the Municipal Office, Bangalore City, on the 6th September 1918.

(4) Correspondence ending with letter No. 4004—G. (555-18), dated the 2nd May 1919, from the Superintending Engineer, Southern Circle.

Order No. P. W. 570-5—M. 1808-13, dated 9th August 1919.

One of the recommendations made by the Committee appointed to concert measures for reducing the consumption of water in Bangalore City, is, that the maximum free allowance for any dwelling house be limitted to 15,000 gallons per month, and any excess charged for at the usual rate of 12 annas per 1,000 gallons.

2. It is reported that there are 40 domestic connections for which the free allowance per month is more than 15,000 gallons. The total free allowance for these houses at present is 2,884,162 gallons per quarter; if it be limited to 15,000 gallons a month, the total free allowance per quarter will be 1,800,000 gallons, thus causing a saving of 1,084,162 gallons per quarter.

3. As the rules prescribed a minimum free allowance, it is considered desirable that a maximum should also be fixed. Under the circumstance, it is directed that the following alteration be made in Rule 11 of the Revised Water Supply Rules :—

Between "4,000 gallons" and "per month" in the last line, insert "or more than 15,000 gallons."

4. Rule 11 as amended will read as follows:—

11. The quantity of water which any owner of a house or property will be allowed to draw from his house-connection free of any charge (other than the general water rate to be assessed upon the annual rental value of his house and premises) shall be regulated in accordance with the following scale:—

"For every one rupee of the rental value of the house and premises, the authorised free allowance shall be 160 gallons, but in no case shall such free allowance be less than 4,000 gallons or more than 15,000 gallons per month."

5. It is further directed that the notification attached be published in the *Mysore Gazette*.

Lansdowne Bazaars at Mysore.

No. P. W. 780-84 –M. 2552-56, DATED 25TH AUGUST 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

READ—

(1) Government Order No. (P. W.) 1283-8—8588-93, dated the 21st December 1906.

(2) The following letters from the President, Mysore City Municipal Council:—

(i) No. 1128, dated 24th April 1917, to the Chief Engineer.

(ii) No. 226, dated 22nd June 1917, to the Revenue Secretary.

(iii) No. 1054, dated 7th March 1918, to the Executive Engineer, Mysore Division.

Order No. P. W. 780-84 –M. 2552-56, dated 25th August 1919.

In the Government Order read above, the Lansdowne Bazaars at Mysore City were ordered to be transferred to the Mysore City Municipality for the purpose of collecting rent. Accordingly, the Municipality have been collecting rents and crediting the same to Government since.

2. The President, City Municipal Council, after pointing out that nothing is being recovered from Government on account of the charges incurred by the Municipality for the purpose of collecting the rents, now proposes that 10 per cent of the collections be granted to the Municipality towards the establishment charges.

3. As it is reasonable that the Municipality should be compensated for expenditure incurred in collecting the rents, Government are pleased to direct that the charge of 10 per cent of the collections proposed may be paid from the year 1918-19, on the condition that the Municipality do not require the services of a watchman to be entertained by the Public Works Department as hitherto. The Public Works Department will, however, continue to carry out the annual repairs necessary for the efficient up-keep of the buildings.

4. As is evident from the Capital and Revenue Accounts of Buildings prepared and issued by the Comptroller every year, the return from the investment on the Lansdowne Bazaars is very low. Shops are located in them and they are in the business centre of the City. They should certainly fetch a much higher rent than what is now fixed. The President, Mysore City Municipal Council, should be requested to take necessary action to increase the rent revenue in consultation with the Executive Engineer, Mysore Division.

5. A note prepared by the Financial Department on the origin and extension of the buildings is appended for information.

APPENDIX.

REFERENCE:—

Dewan's Note, dated the 20th July 1918, requiring a note on the origin and extension of the Lansdowne Buildings together with a brief statement of capital and revenue accounts to be prepared in the Financial Department.

ORIGIN:—

The Lansdowne Bazaar Buildings at Mysore were built by Government as part of a measure of town improvement at a cost of Rs. 92,449 under the superintendence of the then Sanitary Engineer, late Mr. Standish Lee and Mr. Raghavalu Naidu and finally by the Executive Engineer, Mysore Division. They were completed in the month of June 1896. The cost of the main building was 89,286 against an estimate of 89,380. Including the subsidiary works connected with it, the total outlay was 92,449.

2. The buildings consisted of nine blocks. Three of the blocks, *viz.*, 7th, 8th and 9th were sold out to private parties and the remaining six are still in the possession of Government.

The proceeds of the 2 blocks Nos. 7 and 8 are Rs. 1,913 and 592 respectively as per decrees of the Court, while no legal action for the recovery of Rs. 1,554 in respect of the value of block No. 9 was taken and the amount was written off under orders of Government.

3. A statement of rent realized from the commencement and the maintenance charges incurred up to end of 1917-18 as furnished by the Public Works Department is appended.

4. The building was in charge of Public Works Department till end of December 1906 and from January 1907 it is in charge of the Mysore City Municipality, the rent realized being credited to Public Works Department through the Mysore Division Accounts. From the year 1918-19, the Municipality is being paid 10 per cent of the collection as cost of collecting the rents.

5. The Capital and Revenue Accounts of these buildings are being maintained by the Comptroller from 1910-11.

6. From the statement attached, it will be seen that up to end of 1917-18, the rents realized amounted to Rs. 19,547 and deducting the cost of maintenance 3,019, the net realizations were 16,528, being 1,377⅓ the average for each year.

7. According to the Capital and Revenue Account for 1916-17 as prepared by Comptroller, the average cost of maintenance and interest charges since 1910-11 has been calculated at 3,489 per annum, the assessed rent, 5,356, while the realization for 1916-17 was only 2,244.

Statement showing the amount of rent realized on Lansdowne Bazaar Buildings from year to year and the maintenance charges thereon.

VI Installation of the Cauvery Power Scheme.

No. E.D.S. 141-3, DATED 20TH AUGUST 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

READ--

Letter No. H. 19404-350, dated 15th February 1919, from the Chief Electr Engineer submitting, for sanction, a modified estimate, amounting to Rs. 32,92,000 (... round figures) for the VI Installation of the Cauvery Power Scheme.

2. Notes by the Public Works Secretary, ending with No. C.P. S. 119, dated 30th May 1919, recommending sanction to the estimate submitted by the Chief Electrical Engineer.

Order No. E.D.S. 141-3, dated 20th August 1919.

Ever since the inception of the Cauvery Power Scheme, the demand for power has been uniformly increasing, and to cope with it, fresh additions have been made to the generating plant from time to time.

2. There are at present 15 units at the generating station with a capacity of 22,650 H. P., as per details given below:—

11 of 1,150 H. P.	....	12,650 H. P.
3 of 2,000 H. P.	....	6,000 H. P.
1 of 4,000 H. P.	....	4,000 H. P.
	Total	22,650 H. P.

The power actually generated is, however, 21,500 H.P., as one unit of 1,150 H.P. is always kept in reserve.

3. The aggregate demand on the generating station during the year 1917-18, was 19,230 H. P. The Mining Companies on the Kolar Gold Fields have now notified that the power supply to them should be further increased by 2,500 H. P. They also require an additional block of 3,200 H. P. for hoisting purposes and for intermittent power supply. Another 2,000 H. P. is required to be provided for industrial purposes in Bangalore and Mysore Cities. The total demand in the immediate future is, therefore, expected to increase to 27,000 H. P. roughly.

4. But the power actually generated at present is only 21,500 H. P. To maintain a constant supply of this amount, there is the immediate need to replace the 11 small turbines with new Francis turbines and to duplicate the low tension busses, as they are obsolete and have served out their time, their efficiency being affected considerably. The cost of reconstructing the 11 turbines and maintaining them on a level of efficiency and of duplicating the busses, including the extension of the step-up transformer house, is estimated at Rs. 13,63,400.

5. The scheme under consideration is designed to meet the prospective demand by increasing the capacity of the generating station from 22,650 to 27,000 H. P. net, with a spare capacity of 3,600 H. P. This is proposed to be effected by remodelling the generating station and replacing the 11 units of 1,150 H.P. each, as shown below:—

5 units of 4,000 H. P.	..	20,000 H. P.
3 units of 2,000 H. P.	..	6,000 H. P.
4 units of 1,150 H. P.	..	4,600 H. P.
	Total	30,600 H. P.

6. Another important feature of the scheme is to shift the Transformer Station from the head of the Bluff where it is now situated and to re-construct it at the foot, as an extension of the present generating station. This is calculated to result not only in better efficiency but also in facilitating economical maintenance of plant, etc.

7. After the completion of the first stage of the Krishnaraja Sagara Dam, the calculated minimum flow available in the river during the summer months is 750 cusecs. The extension now proposed is therefore limited to 27,000 E.H.P. net. With

the second stage of the reservoir, the minimum flow available at Sivasamudram will be 900 cusecs. It will then be possible to generate 32,000 H. P. The proposed work is so arranged that further additions can be undertaken at any time without much material alteration.

8. The VI Installation of the Cauvery Power Scheme being the most urgent and important of the works of development in the Electrical Department, Government are pleased to accord general administrative sanction to the modified proposals estimated to cost Rs. 32,92,000, which is made up as follows:—

(1) Rs. 11,48,081, for replacing the 11 small turbines reported to be obsolete.

(2) Rs. 21,43,919, for rearranging and extending the capacity of the plant from 22,650 to 30,600 H. P.

The outlay under (1) will be debited to the Depreciation account and that under (2) to the Capital account.

9. The Financial Secretary is requested to provide 5 lakhs of rupees for the work in the capital programme of 1919-20, by a re-distribution of the grant of 90 lakhs already provided therein.

10. Before the estimates are finally sanctioned, they will be got examined by a recognised Consulting Engineer in England or America.

11. The Chief Electrical Engineer is, however, authorised to incur an expenditure up to 5 lakhs, being the grant allotted to this work during the current year.

READ—

The following review by the Revenue Commissioner in Mysore of the programmes of Famine Relief works for the year 1919, received with his letter No. C. Per. 119, dated the 24th June 1919.

The dates on which the Famine Relief Programmes of the several districts were received in this office from the Superintending Engineers concerned are given below :—

District	Officer from whom Programme is due	Date of receipt of Public Works Programme	Date of receipt of Village Works Programme	Remarks
Bangalore ..	Superintending Engineer, Southern Circle.	23rd April 19 ..	5th May 19 ..	Form III is yet due.

Chitaldrug ..	Do ..	11th February 19	Do ..	

Notwithstanding the instructions issued in this office No. C. Per. 119, dated 2nd January 1919, for the prompt preparation and punctual submission of the Programmes, the Public Works Programmes of Bangalore, Tumkur, Mysore and Kadur Divisions, and Village Works Programmes of Bangalore, Mysore, Kolar, Tumkur and Shimoga Districts were received only long after the due date. *i.e.*, 1st March 1919. It is very unsatisfactory that the Village Works Programmes of Bangalore and Tumkur Districts were received so late as 5th and 20th May 1919, respectively. In this office circular mentioned *supra*, the Deputy Commissioners were also requested to submit along with the Programmes a District Map clearly showing the works of each taluk. It is regretted that the tracings in respect of Village Works of Bangalore, Mysore and Shimoga Districts and of Public Works of Tumkur and Shimoga Divisions have not been submitted in spite of several reminders.

2. *Summary of Programmes* :—

The total number of projects of all kinds in the several districts is 8,589 of an estimated aggregate cost of Rs. 6,26,20,562, of which a sum of Rs. 4,11,29,668 is available for employment of 616,945,020 units of famine labour.

The following statement gives the particulars of several classes of projects :—

4. *Number of persons to be provided for and adequacy of programmse.*—Section 20 of the Mysore Famine Code requires that provision has to be made for the relief of 27,489 persons for six months (*i.e.*, for 180 days), that is to say, 130,948,020 units of famine labour. It is evident from the following statement that the provision made under sanctioned Public Works shows an increase of 6·22 per cent for the State. No attempt seems to have been made to make up the deficiency in the sanctioned works in Kolar and Hassan Districts. The provision under sanctioned village works continues to be very poor. In the Kolar District, the provision is nil against 14·08 per cent shown last year (*vide* Famine statement of Kolar District). This requires explanation. Evidently, no endeavour has been made by the Deputy Commissioners of Districts, except Shimoga, to have a good number of works under emergency programmes sanctioned. This has been repeatedly pointed out year after year. The sanctioned works alone provided

No. P. W. 603-25—M. 1972-94, DATED 13TH AUGUST 1919.

about 77·5 per cent of the total number of units required under the Mysore Famine Code Taking sanctioned and emergency programmes together, ample provision exists in all the districts.

5. *Defects in the Programmes*:—

(*a*) *Public Works Programmes*:—Total number of units given in Form IV pertaining to Tumkur Division does not tally with that given in Form I.

In book I of the Shimoga Division, the district totals for Parts I and II have not been given separately. The district abstracts of Form IV relating to Bangalore, Mysore and Chitaldrug have not been furnished.

(*b*) *Village Works Programmes*:—Form No. IV relating to the Mysore District does not contain full particulars relating to Hunsur Taluk furnished in a supplementary statement No. I. figures furnished in Form III (Famine statement) pertaining to Tumkur District do not indicate units (in thousands) as required but in rupees and the total number of units given in statement No. IV of the same district does not tally with that given in Form No. II. Column 6 of Book II (Details of Village Works) relating to Bangalore District and Hunsur Taluk of Mysore District has been left blank and it is therefore not understood whether a particular work has to be treated as one falling under sanctioned programme or under the emergency programme

The Deputy Commissioners are requested to see that such inaccuracies are rectified and are not allowed to occur again.

6. As required in section 31 (3) of Mysore Famine Code, the following is the total number of persons (both officials and non-officials) available for famine duty:—

District.	Number.	
Bangalore	750	
Kolar	90	(a)
Tumkur	312	
Mysore	48	(a)
Hassan	191	
Shimoga	176	(b)
Kadur	76	
Chitaldrug	311	
Total	1,960	

(*a*) List of persons available for Village Works of Kolar and Mysore Districts and (*b*) for Public Works of Shimoga District has not been received in spite of several reminders from this office to the Deputy Commissioners concerned.

7. Statement No. IV and IV(A) and Form No. III—Famine statement, are forwarded herewith for the information of the Government.

Order No. P. W. 603-25—M. 1972-94, dated 13th August 1919.

Recorded.

2. Notwithstanding the repeated attention called for by Government, year after year, and the special instructions issued by the Revenue Commissioner at the beginning of this year for the prompt preparation and punctual submission of the programmes, nine out of the eighteen programmes were received after the due date. The officers concerned should be informed that such a state of affairs cannot be tolerated or allowed to continue.

No. P. W. 603-25—M. 1972-94, DATED 13TH AUGUST 1919.

3. It is very unsatisfactory also that the Village Works Programmes of Bangalore, Mysore, Kolar and Shimoga Districts and the Public Works Programmes of Tumkur and Shimoga Districts, should have been submitted in an incomplete form. The Deputy Commissioners and Executive Engineers concerned should be called upon to supply the deficiency within a month, and in case of failure, the matter may be reported to Government.

4. It is disappointing to learn that no attempt has been made by the Executive Engineers of Kolar and Hassan Divisions and the Deputy Commissioners of Districts, except Shimoga, to make up the deficiency in the sanctioned programme. More effective control should be exercised by the Superintending Engineers and the Revenue Commissioner in dealing with the half-yearly reports of progress in the preparation of projects and any slackness on the part of any officer in this respect brought without any delay to the special notice of Government.

5. The defects and inaccuracies pointed out by the Revenue Commissioner in some of the programmes should be duly rectified by the officers concerned before the programmes are recorded.

6. The inspection reports on the reserves of tools and plant, prescribed in Section 32 of the Famine Code, have not been received complete from either of the Superintending Engineers. This is unsatisfactory. They are requested to see that these reports are submitted in a complete form within the prescribed time in future.

7. A copy of the abstract statement (Form III) of the Famine Relief Programmes for the year under review is appended for information.

Refunding or Waiving Wharfage Charges on Consignments of Cotton Seeds.

No. R. S. 247-50—Ry. F. 68 O. L. 19-20, DATED 7TH AUGUST 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

RAILWAY DEPARTMENT.

READ—

Correspondence ending with the Railway Secretary's Note No. 719, dated 2nd July 1919, submitting the case regarding the refund of wharfage charges on certain consignments of cotton seeds booked to Kolar and proposing that some powers may be delegated to the Traffic Manager in the matter of refunding or waiving the charges.

Order No. R. S. 247-50—Ry. F. 68 O L. 19-20, dated 7th August 1919.

The following procedure should be followed in future.—

(i) In every case when wharfage is due under the rules the same should be brought on to the books and the charge waived or refunded under the written orders of the Traffic Manager.

(ii) The Traffic Manager is empowered to waive or refund wharfage and demurrage charges up to a limit of Rs. 50 in each case.

(iii) Cases of refunding or waiving wharfage and demurrage charges above Rs. 50, should be submitted to the Agent for final orders and all cases involving Rs. 100, and above should be included in a monthly statement for confirmation in the minutes of Railway Officers' Meetingas in the Madras and Southern Mahratta Railway.

This procedure may be in force for one year and a report may be submitted at the end of that period when the question of its modification or continuance may be considered.

Construction of quarters for the Railway Officers and staff at Vontikoppal, Mysore.

No. R. S. 211-14—Ry. F. 149G-19-20, dated 4—9th August 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

RAILWAY DEPARTMENT

READ—

Government Orders Nos. 358-61—Ry. F. 149G-17-18 and 667-7C—Ry. F. 149G-17-18, dated 1st and 20th August 1917, respectively, sanctioning the construction of certain quarters in the Vontikoppal Extension, Mysore City, for the officers and staff of the Railway Department at an aggregate cost of Rs. 3,10,000.

Correspondence ending with the Railway Secretary's Note No. 692, dated 24th June 1919, soliciting sanction to the redistribution of the amount sanctioned for the construction of quarters as shown in the statement.

Order No. R. S. 211-14—Ry. F. 149G-19-20, dated 4—9th August 1919.

In the Government Orders referred to above, sanction was accorded for the construction of the following quarters:—

10 quarters for officers.
8 'A' type quarters. } For clerks.
15 'B' do
24 'C' do
24 'D' do
40 Menials' quarters.

2. The Railway Secretary now represents that owing to higher rates having had to be paid for various items of work, etc., only the marginally noted quarters were built and proposes to build further, 1 'A' type, 4 'C' type and 3 menials' quarters for the Stores Department out of the sanctioned amount. This means that out of a total sanctioned number of 121 units, 97 have been constructed, 8 will be constructed and 16 cancelled (2 officers, 3 'A,' 1 'B,' 2 'C' and 8 'D').

8 Officers' quarters
4 'A' type quarters.
14 'B' do
18 'C' do
16 'D' do
37 Menials' quarters.

The redistribution of the amount sanctioned as proposed by the Railway Secretary, and as shown in the accompanying statements is sanctioned.
